

SUMMARY

Technical support engineer with 7+ years owning end-user IT issues from first contact to resolution over **email, chat and phone**. Strong at diagnosing and troubleshooting software, hardware, **account-setup and network-configuration** problems across **Windows, Linux and macOS**, escalating cleanly to internal teams, and managing many open tickets at once against SLA. Experienced with help-desk platforms (ServiceNow, TOPdesk, Freshdesk - comparable to Zendesk) and remote-support tooling. Calm, clear communicator who keeps customers updated the whole way through.

SKILLS

- **Support delivery:** email / chat / phone support, ticket ownership to resolution, incident management & SLA, prioritising multiple concurrent issues, structured escalation, KB documentation
- **Troubleshooting:** software & hardware faults, application install & configuration, account setup, basic network configuration (TCP/IP, DNS, DHCP, VPN, Wi-Fi)
- **Operating systems:** Windows 10/11 & Server, Linux/Unix desktop, macOS
- **Identity & access:** Active Directory / Entra ID account setup, password & MFA resets
- **Help-desk & remote tools:** ServiceNow, TOPdesk, Freshdesk (Zendesk-equivalent workflows), remote-desktop support tools
- **Automation:** PowerShell for routine provisioning and support tasks
