

PROFESSIONAL SUMMARY

IT Support / Service Desk Engineer with 7+ years providing Tier 1 and Tier 2 technical support, incident management, and system administration for enterprise and global user bases. Day-to-day strengths in **Microsoft 365 and Outlook/Exchange administration, shared mailbox provisioning, Active Directory and Azure AD (Entra ID) user and access management, VPN and network troubleshooting, endpoint support, and password/identity resets**. Comfortable owning tickets end to end in ServiceNow, TOPdesk and Freshdesk against SLA, writing knowledge-base articles, and automating repetitive helpdesk tasks with PowerShell. Also supports Microsoft Azure cloud operations. Fully remote-ready with a customer-first communication style.

CORE SKILLS

- **End-user support:** Tier 1 / Tier 2 helpdesk & service desk, remote and onsite, incident & problem management, escalation handling, SLA adherence, RCA, KB documentation
- **Microsoft 365:** Exchange Online, Outlook, shared mailbox creation & delegation, distribution lists, SharePoint, Teams, licensing
- **Identity & access:** Active Directory (users, groups, GPO), Azure AD / Entra ID, password resets, MFA, account lockouts, joiner-mover-leaver
- **Networking:** VPN client troubleshooting, TCP/IP, DNS, DHCP, Wi-Fi, basic routing (OSPF/EIGRP/RIP), firewall basics
- **Endpoint & systems:** Windows 10/11, Windows Server 2012 R2 / 2016, basic macOS & Linux desktop, patching, backup & recovery, endpoint security
- **Cloud:** Microsoft Azure - infrastructure monitoring, basic administration, identity workloads
- **Tooling & automation:** ServiceNow, TOPdesk, Freshdesk, remote-support tools, PowerShell scripting for provisioning and routine tasks

WORK EXPERIENCE

IT Support Analyst / System Administrator - Amazon

Aug 2021 - May 2025 | Dhanbad, India (remote & onsite support)

- Resolved hardware, software, connectivity, Outlook/M365 and account issues for end users across remote and onsite channels, consistently meeting SLA targets.
- Administered Active Directory and Windows Server environments - user/group management, GPO, access reviews - to maintain security and uptime.
- Managed Microsoft 365 services (Exchange, SharePoint, Teams) including shared mailbox creation, delegation and distribution-list changes.
- Ran root-cause analysis on recurring incidents and published KB articles that cut repeat tickets.
- Built PowerShell scripts for user provisioning, monitoring and routine helpdesk tasks; documented support procedures and standards.
- Tracked service metrics and proposed workflow changes that improved first-contact resolution.

Service Desk Engineer (Client: Intel) - Infosys / Shell Infotech

Aug 2020 - Aug 2021

- Delivered Tier 1 / Tier 2 support to global teams, handling escalations and keeping to SLA.
- Resolved network connectivity, VPN, Active Directory and Microsoft 365 application issues.
- Documented KB solutions for recurring issues, improving team response times.

Network Service Engineer - Atos India

Mar 2020 - Jun 2020

- Installed and configured routers, switches, firewalls and wireless access points.
- Performed firmware upgrades, routine maintenance and capacity planning.
- Diagnosed and resolved network outages across hardware and software.

Customer Support Engineer - CMS IT Services

Jan 2019 - Dec 2019

- Provided hardware, software and application support for end users with fast resolution.
- Supported installation and acceptance testing of specialised client equipment.
- Maintained clear written and verbal communication throughout support interactions.

System Engineer - Anupama Construction Pvt. Ltd.

Feb 2017 - Mar 2018

- Handled server maintenance, system upgrades and backup operations.
- Supported network and hardware troubleshooting for daily business operations.
- Standardised and scripted routine IT processes; documented procedures for the team.

Independent IT Consultant - Freelance

May 2025 - Present

- **CloudOps efficiency (TechNova Solutions):** Improved Azure infrastructure monitoring and automation; raised measured uptime.
- **AD to Azure AD migration (ByteCore Technologies):** Migrated on-prem Active Directory to Azure AD with no user downtime; tightened identity and access controls.
- **Remote workforce enablement (DigiWave Consulting):** Configured Microsoft 365, Teams and endpoint security for 150+ remote users.
- **User provisioning automation (NexaSoft Systems):** PowerShell automation that cut onboarding time significantly.
- **Firewall hardening (SecureLink IT Services):** Strengthened firewall rules and reduced exposed services.
- **Service desk optimisation (CloudBridge Solutions):** Reworked ServiceNow workflows to speed ticket resolution.
