

SUMMARY

Technical support engineer with 7+ years across Windows Server environments, PowerShell-driven diagnostics, ServiceNow/ITSM incident and escalation workflows, and Active Directory / identity & access management. Comfortable reproducing issues across test and production, gathering diagnostic evidence (logs, service status, network traces), and coordinating escalations between support and engineering teams. Hands-on with certificate management, PKI and network fundamentals (TCP/IP, DNS, firewalls). Ramping quickly on new application stacks - currently building working knowledge of HL7 interface concepts, SQL Server troubleshooting and IIS/ASP.NET environments for this role.

SKILLS

- **Infrastructure:** Windows Server (2012 R2 / 2016), PowerShell for service/process management and connectivity validation, Citrix / VDI environments
- **Identity & security:** Active Directory / Entra ID, MFA, certificate management, PKI fundamentals, endpoint security
- **Networking:** TCP/IP, DNS, DHCP, firewalls, VPN, connectivity troubleshooting
- **ITSM & escalation:** ServiceNow (ITSM), TOPdesk, Freshdesk - incident/problem management, structured escalation to engineering, root-cause and diagnostic-evidence gathering
- **Ramping on:** HL7 message flows / interface engines (healthcare integration), SQL Server & ODBC troubleshooting, IIS / ASP.NET application-layer issues, Azure DevOps / GitHub
- **Automation:** PowerShell scripting for provisioning, monitoring and diagnostics

EXPERIENCE

IT Support Analyst / System Administrator - Amazon | Aug 2021 - May 2025 | Remote & onsite

- Administered Windows Server environments; used PowerShell for service management, process monitoring and connectivity validation.
- Owned incidents end to end in a ticketing/ITSM workflow, gathering logs and diagnostic evidence, escalating to the right internal teams with clear reproduction steps.
- Managed Active Directory identity and access, including certificate-related and MFA issues.
- Ran root-cause analysis on recurring incidents; documented KB articles that reduced repeat tickets.
- Built PowerShell automation for provisioning and routine diagnostics.

Service Desk Engineer (Client: Intel) - Infosys / Shell Infotech | Aug 2020 - Aug 2021

- Tier 1-2 support to global users; resolved network connectivity, Active Directory and application issues; escalated per SLA; documented KB solutions.

Network Service Engineer - Atos India | Mar 2020 - Jun 2020

- Installed/configured routers, switches, firewalls and access points; diagnosed hardware/software network outages; capacity planning.

Customer Support Engineer - CMS IT Services | Jan 2019 - Dec 2019

- Hardware, software and application support for end users with fast resolution; supported acceptance testing of specialised equipment.

System Engineer - Anupama Construction Pvt. Ltd. | Feb 2017 - Mar 2018

- Server maintenance, upgrades and backups; hardware/network troubleshooting; scripted and documented routine IT processes.

Independent IT Consultant - Freelance | May 2025 - Present

- On-prem Active Directory -> Entra ID migration with zero downtime; firewall hardening reducing exposed services; Azure infrastructure monitoring and automation improvements.

EDUCATION & TRAINING

- GNIIT, Cloud & Mobile Software Engineering - NIIT, Dhanbad (2017)
- Diploma in Hardware & Networking - NIIT, Dhanbad (2016); B.Com - Vinoba Bhave University (2014)
- Training: Microsoft Azure / Entra ID administration (2021); Cisco networking coursework - CCNA/CCNP/CCIE Security (2020)
